

1GS CORPORATION | Capability Statement

Executive Summary

1GS Corporation is a woman- and minority-owned small business with 30+ years of enterprise-scale transformation experience. We close the execution gap in government IT by delivering business architecture, SaaS/ERP integration, ERP modernization, and SDLC-aligned services. From discovery through sustainment, we provide strategic alignment, audit-ready outcomes, and measurable mission impact.

Core Competencies

Agile Lifecycle Services – Discovery, requirements, solution design, testing, deployment, sustainment

Product & Program Management – PPBE-aligned planning, roadmaps, and delivery support

Technology Integration – SaaS/ERP implementation (Oracle, SAP, PeopleSoft, Dynamics)

Stakeholder Engagement – Strategic alignment across technical, functional, and mission areas

Data & AI Enablement – Governance, no-code automation, dashboards, and traceability

Differentiators

Dual-lens expertise: translating between business and IT from ideation to deployment

30+ years of cross-sector delivery—logistics, healthcare, retail, utilities, e-commerce, technology

Fortune 100-level rigor with small business agility and rapid mobilization

End-to-end lifecycle support with compliance, audit, and sustainment focus

Proven track record in ERP systems, logistics, and mission-critical SaaS implementations

Past Performance Highlights

Walmart.com – \$180M SAP O2C global eCommerce platform (order management, finance, supply chain)

UPS – Defined and implemented global financial/operational controls; enabled \$500M Trade Direct product and \$17M annual cost savings

McKesson – Automated \$250M/month promotional billing; reduced cycle time from 3 weeks to 3 days (85% efficiency gain)

PG&E – SAP-integrated digital tools reducing service calls by 20% and increasing online engagement by 10%

Autodesk – \$30M global marketing transformation; optimized performance management and strategic spend

Aptitude Software – Implemented SaaS revenue management platforms for multi-industry clients (\$15M–\$60M project scope)
